

The Africa bazaar held on 18th March by MRS. Maria de Fatima Xavier was an amazing experience for me. It was a bazaar handled by the wives of some African countries like DRC, Rwanda, Malawi, Nigeria, Uganda, Namibia, Cameroon, etc.... It was an amazing opportunity to also watch some wood carvings African paintings which illustrate in my point of view a further understanding of collaborating for better making a peaceful world. There were different types of spices, foods, and some African clothes depending on each country culture representation.

Attending the Charity Bazaar with my colleague Patrick was also excellent, and it was a way for us to better understand how important cooperation is in the world to resolve some misunderstandings and stereotypes around. Not only African people attended but it was an amazing combination of cultures which gave me hope to live in a peaceful world in the near future.

And I came up to meeting and sharing some experiences with these wonderful people and others. It was so much cultural to me and also so peaceful the fact that everybody was really comfortable to share and be willing to understand each one's cultures and values. It was a successful event to me and has improved my skills and knowledge in the peace building context and other ways around.

Thank you so much for this great opportunity given.
